		Quadriceps femoris	Tibialis anterior	Optic nerve	Spleen	Femoral lateral skin	Left lobe of the liver	Colon	Cerebellum	Heart	Kidney	Eye	Dorsal skin	Extensor digitorum longus	Adrenal gland	Gastrocnemius	Mammary gland	Soleus	Liver	Lung	Heart / Heart right ventricle	Retina	Spleen-distal	Bone marrow	Femoral skin	Cecum	Thymus

Tissue order follows the cross-tissue DNA-damage-response GO table. Ages are discrete source values; ranges are retained only where the downloaded OSDR ISA table reports a range. Multiple age strata within one cell are horizontally offset.
